

# C019 : Break

defoamer

### Description of product

An additive specially formulated to control detergent foam. Prevents accumulation of foam in wet pick up tanks. A must for carpet hot water extraction machine recovery tanks. Prevents foam clogging pumps and pipelines, restores correct circulation, prevents pumps overheating. Reduces unsightly foam in effluent treatment tanks.

### Product Uses

To prevent and control detergent foam in all applications.

### Directions

For use with carpet extraction machines dilute 1:200 Pumping systems: Add Break as required to prevent foam build up in pumps and pipelines. Effluent: Drip feed into effluent drain to control foam level.

### iNsight Supported

iNsight is Selden's interactive product selection and training system. Enables the user to create full COSHH training kits, wallcharts, task cards and more. visit <http://www.selden.co.uk/insight>

### iNsight recommended product uses

### Product Hazards and PPE Requirements

Contains : Benzisothiazolinone

#### Risk Phrases

Contains Benzisothiazolinone. May produce an allergic reaction.

#### Safety Phrases

### Technical Data

Composition A blend of mineral and silicone oils, emulsifying agents, stabilisers and preservatives in an easy to use emulsion form

Appearance Opaque emulsion

Colour White

Viscosity 100 cps

Density 1.000

pH 6.5 - 8.0

Fragrance Characteristic

Stability 2 years stored in unopened containers in ambient temperatures. Shake before use.

Storage Protect from freezing.

### Environmental Profile

#### Biodegradability

All surfactants contained in Selden Products meet the requirements of the EU Detergent Directive 2005 – 2004/648/EC. This requires all surfactants to break down both quickly and completely into harmless material such as CO2 and water.

#### Selden Environmental Charter
